

# Safety Tips for Group Riding

The key to a great Cycle the WAVE experience is safety. We want everyone to have a safe and enjoyable experience. All roads are open to all users – vehicles and bikes.

## Ride predictably

Ride in a straight line and obey traffic laws. Signal your intentions with voice or hand signals.

## Ride right

Ride as far to the right as is safe, allowing others to pass. Never cross a centerline. **Use your voice.** Let other riders know when you are **“Passing on the Left”**.

## Ride single file

Remember single file is safer. Blind areas and curves or corners should always be ridden single file.

## Ride safe

Ride with the safety of yourself and others in mind. Pass others with care. Grant pedestrians the right of way. Cross RR tracks at right angles. Never draft or join a paceline unless you know the other riders or receive the group’s permission AND know paceline technique.
